COUSIN TO THE SEA SERPENT.

A Lake Serpent Said to be as Large Around as a Telegraph Pole.

From the Ottawa Free Press.

In Eardley Township, county of Ottawa, near the north shore of Lake Ducheane, is located the phosphate mine of Messrs. McLean & Co. Mr. H. McLean, senior member of the firm, is Warden of the county named. He is in the city to-day, and states that a veritable sea serpent has been seen in Lake Duchesne. It will be remembered that about a year ago a fisherman named Paquette told a story of having seen a big serpent in the lake, but it was generally discredited, and serves the purameter that it is a server to the purameter that is a server that the purameter that is a server that the purameter that is a server that the purameter that He is in the city to-day, and states as sea serpent stories were popular at that time. Paquette's statement was as follows: He was out fishing one ns follows: He was out using one night on the lake when he was startled by some object in the water going against wind and wave, and rocking his boat frightfully for the moment. He labored under the impression that the old serpent had taken to the water, when made for shore, and since then so he made for shore, and since then fishes no more by night in the waters of the lake, and very little by day.

The serpent, for the monster is un-

doubtedly a serpent, has been seen by several parties whose veracity is unquestioned. Mr. McLean says that a few days ago Mr. Williams, foreman of the phosphate mine, and one of the men, a Canadian named Blanchette, bad their attention at the series of the phosphate mine, and one of the men, a Canadian named Blanchette, bad their attention at the series of the ser had their attention attracted to a commotion in the waters of the lake, are immediately relieved and effecpoint where the water was agitated was about one-eighth of a mile out, and between the little island light-The house put up by the Union Forwarding Company, but not now used, and the shore. After watching for a moment the Canadian cried out, "Le proprietor, serpent!" evidently remembering the fisherman's story of a year ago. Mr Williams, who is known as a very steady, reliable man, says that the animal in the water was a screent of some kind, and a very large one at that, for it wriggled about in the

water, swimming quite fast.

They could see about four feet of its back from the head, but it appeared to be more than three times that length, from the motion of the water, while in thickness its body seemed to be about the size of a small telegraph

It was dark green in colo-, but the distance prevented them from getting it well defined before they cleared for climate, in which fruit is used to an camp to get guns, as the serpent was coming shoreward, and they had no intention to await its arrival without being armed. ocrata in the present campaign is the alleged desirability of a change of administration from Republican to Democratic. This is the constant appeal of the Democratic press to the voters

What does a change of administration meanin this country?

There some one hundred thousand offices of trust and responsi-bility in the gift of the Administration The officials holding them annualis handle vast sums of money-millions on millions of dollars. The present incumbents of these offices are men of tried and proved ability and integrity. The present Administration is remarkable for its purity and for the excellence of its appointments. Never in the history of the coutnry have there been less stealing. Never has the various departments of the civil service been more honestly and efficiently conducted. Even the Democrat. are obliged to confess that the public business of the country has never been in better hande.

what would follow? The Democrats are still true to their "principle" that "to the victors belong the spoils." Let a Democratic President be elected, and such a rush for office will comnence as was never before witnessed Democratic politicians of every stripe will clamor for their reward. The "workers" in the campaign will demand office. They must be satisfied. There uld be no discrimination between applicants. The pressure would be too great. The out-going public officials would be succeeded by a horde of incompetent, rapacious plunderers, pager for "the spoils." Then would follow an era of mismanagement and robbery such as has never been known in the history of any country. This is what a change of Administra-

A GREAT EVENT.

One of the most important events of the year is the removal by the Chinese government of restrictions upon foreign trade. Up to the present time only five ports of China have been, through the agency of existing treaties open to commerce with the other na tions of the earth. Now all have been thrown open to traffic with the "Yeung Quay Tze," foreign devils, and China at once becomes a competitor for the commerce of the world. Four hundred millions of Asiatics are thus pur into unrestricted communication with foreigners. From this step we date a new era for China. The gates of that ancient empire have at last been thrown open to all the world. Who can estimate the vast results that will spring from the free introduction of rum, tobacco and religion, "those great civili-zers," into China?

Rattlesnakes are becoming more dangerous as their season of blindness aches - In August and September, it is said, they sometimes bite without warning. The box is labeled: "Alabama Democratic Majority, 60,000." The Southerner bearing the box accosts Hancock with: General, this is as full, free and fair as we can count in."

What a story of domestic misery, ending in a terrible tragedy, can be put into two brief sentences, such as these: "Jeremish Ford was arrested in New York yesterday for knocking at Napa, died from the waunds. his wife down last Saturday night, and inflicting injuries which caused her death. Ford was drunk at the time and the woman was endeavoring to get him home."

die Paper's Account of the Grass hoppers About Reno-Let Contai-ders Know the Werst.

The Bodie Standard-News thus describes the ravages of the grasshop pers in this section:

"In Steamboat valley and along the arms in squads knee deep on each side of a dividing fence. Not a green thing is left to mark the spot where few short days since the rich green fields of altalfa waved in luxuriancebut drear barrenness. Nor is any green thing allowed to rise above the The tender shoot bursting its way through mother earth is eager ly rooted out before it fairly makes its appearance. The fruit trees and vices all have shared the same common fate, leaving the gardens of Reno, the pride and boast of her people, a The Standard-News is informed

that the situation is far more grave. On the arid desert, which leafless, treeless and deserted, now streehes between Reno and Steamboat, the grasshoppers are three feet deep. Every green thing was eaten up long ago, and the earth is completely honeycombed to a depth of eighteen inches by the excavations of the insects in search of grass roots. The beautiful groves of lignum vitae have been gnawed down on a level with the ground, not a vestige of their stems remaining. The insects are terribly veracious. After the fences were de voured they ate up the telegraph poles and the ties of the V. & T. railroad. It may be weeks before telegraph and railroad communication can be restored with Carson. The grasshoppers are now devouring each other by myriads. Their numbers would be seasibly diminished by this slaughter, did not millions daily hatch out from the ground. The clashing of the mandibles of the insects sounds to the beleagured inhabitants of Reno like the angry roar of the surf upon a distant shore. Looking from the top of the Depot Hotel, from the town limits to awe inspiring. Just after sunrise, when all is still save the subdued grinding of the jaws of the more vora cious hoppers, preying upon their fel-lows, the creatures begin to rise. There comes a sound as of a sighing, gentle breeze, gradually increasing in volume until it deepens to a noise like the rushing of a mighty wind. The air is filled with insects, completely shutting out the light of the sun, and the town remains in darkness while the flight continues. At evening the same thing occurs. Grave fears are entertained for the safety of the people shut up in their houses on the meadows. Should the desperate insects eat away their dwellings, the human beings in them would, if not

Mangled by a Bear.

Says the Fresno. Expositor: A. J. Wade, an old citizen who has resided the employ of McDonrid, taking care some miles from camp, in the Sierra esst of Grand Valley, when he came suddenly upon a female bear and her cubs. The old bear immediately cubs. The old bear immediately made fight, and, as there, were no to escape by retreating around a tree, the bear at his heels. For a time he was successful; but the bear suddenly turned and met him face to face, (an catching him by the legs, threw him down and severely bit him in fifteen or twenty places. At this juncture Wade's little dog interfered, and the bear left Wade and retreated into the thicket to her curs. Wade then started to crawl toward camp, but no sooner did he show signs of life than the bear was again at his side. De this time, she mangled his flesh hor ribly, crushing the bones of both arms and legs. Wade lies in a precarious condition, his life being despaired of

A Case of shocking Cruelty.

A cruel curniudgeon yesterday had n town a pair of unshod horses, atteet were in a shocking condition. One of them, a gray, had feet that sickened one to look at. From one hoof the blood was oozing where the follow. horn had been worn away nearly lown to the quick. When remonstra ted with for driving a horse whose feet were in that condition, the ranch er said the animal was not worth the cost of a pair of shoes. And yet he was mean enough to work him! The horse is a noble animal and yet often has a brute for a master. There should be a law that could snatch such cruel drivers from their seats and lash them into some semblance of humanity.

Dog Valley in the Sierra-A Charming Pine Trees Grow.

The finest drive out of Reno is to Dog valley, thirteen miles away. The road follows the north bank of the Truckee river, foaming and dashing Truckee at Reno, the grasshoppers are marshalled in myriads, their skirmishes are in every field and garden spot. The main body lying on their the hill bring one to the State line. the hill bring one to the State line. Here an iron monument bears on its west side, "California;" on the east, "Nevada;" on the south, "120° Longitude West of Greenwich;" on the north, "170 miles to Oregon." The word BREWERY on a sign board hanging from a building in California, just over the line, will be apt to fix the masculine reader's attention. The building is the Crystal Peak Brewery, and the lover of good beer will enjoy a visit to its cool cellars and watch with interest how the brew is made.

For three miles beyond the brewery the road climbs the Dog valley grade, winding along a mountain side through a forest of pine and fir. Trees hundreds of years old throw their shadows across the way. Tapering boles rise straight as an arrow for upwards of a hundred feet from th ground. Trees that only need trimming to make fit masts for an Admiral's ship stand all around one. There is a variety of underbrush growing along the roadside. The glisening green leaves of the ceanothu turn their edges to the sun. Wyethia or wild sunflower, grows thickly in patches, its yellow flowers brightening water guch out here and there from

the mountain side. When the summit of the grade is torough it, enclosed by lofty mountains covered by a heavy growth of trees—a miniature Yosemite. The descent into the valley is accomplished by a winding road, graded along the ide of the mountain. There is abundance of shade afforded by the aspens which line the banks of the little the mountains beyond Steamboat, the eye rests upon an unbroken sea of grasshoppers, glistening green under the rays of the fiery sun. The morning and the evening flights of the insects to the Truckee for water are awe-inspiring. Just after sunrise ous trees gives a grateful shade, and the ground is level, dry and free from stones. The air of the valley is always cool and fresh, laden health-giving balsamic odors of the fir and the pine.

Another dispatch says that at 10

this morning a fire broke out on the east side of Main street; just south of the Odd Fellows' building. It traveled over substantially the same ground as the great fire of a year ago. The loss is even more, as the buildings were better and newer. The fire extended south on Main street to Gold street, and swept everything to the north ward. The wind was blowing a gale. Among the prominent buildings and institutions destroyed may be mentioned the following: son House (gutted, but standing), & Co.'s bank, Rickard and Foley's building, and Jack Perry's corner. It is impossible to form any estimate of the prevailing shade of green. Never-failing springs of ice-cold, crystal the losses, but the mount must be about one million dollars. All of the private residences on Spring, Buel and resched, one looks straight down from Paul streets, north of the Episcopal the mountair, hundreds of feet iel w church, were consumed. There can

REPUBLICAN PLATFORM.

Following is the text of the resolutions adopted by the Republican National Conversion on Saturday, June 5, 1880:

idec of the resonance of the control of the control

First. We sfirm that the work of the last twenty-one years has been such as to commend itself to the favor of the nation, and that the fruits of the costly victories which we have schieved through immense difficulties should be preserved. That the peace regained she ald be cherished. That the dissevered Union, now happily restored, should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future generations. That the order established and the credit acquired should never be imperiled. That the pensions promised should be paid. That the debt so much reduced should be axinguished by the till payment of every dollar thereof. That the reviving industries should be further promoted, and that the cosmerce already so great should be steadily encouraged. ENUMERATION OF PRINCIPLES moted, and that the commerce already so great should be steadily encouraged.

Second. The Constitution of the United States is the supreme law, and not a mere compact. Out of the confederated States it made a sovereign nation. Some powers are sensed to the nation, while others are retained by the States; but the boundary between the powers delegated and those reserved is to be

Third. The work of popular education is one left to the care of the several. States, but it is the duty of the national government to aid that work to the extent of its constitutional shifty. The intelligence of the nation is but the aggregate of the intelligence in the several States, and the destiny of the nation must be guided, not by the genius of any one State, but by the average genius of all.

NON-SECTAMIAN SCHOOLS.

NON-SECTABLAN SCHOOLS.

Fourth. *The const tution wisely forbids ongress to Lake any laws respecting an establishment of religion, but it is idle to hope that the nation can be protected against the fluence of acctarianism white each state is aposed to its particular domination. We berefore recommend that the constitution upon the Legislature of each State, and to forbid he appropriation of public funds to the suport of sectarian schools.

on the Legislature of each State, and to forbid the appropriation of public funds to the support of sectarian schools.

Fifth. We reaffirm the belief avowed in 1876, that the duties levied for the purpose of revenue should be so discriminate as to favor American labor. That no further grant of the public domain should be made to any railing perished in the States, its twin barbarity, polygamy, must die in the Territories. That everywhere the protection accorded to a citizen of American birth must be secured to citizens of American adoption. That it is the duty of Congress to develop and improve our water-courses and harbors, but we insist that further subsidies to private persons or corporations must cease. That the obligations to the men who preserved its integrity in the day of battle are undimnished by the lapse of filteen years since their final victory. Their perpetual honor is and shall forever be the grateful privilege and the sacred duty of the American people.

erican people. Sixth. Since the authority to regulate immigration and intercourse between the United States and foreign nations rests with the Congress of the United States and the treaty-making powers, that the Republican party, regarding the unrestricted immigration of the Chinese a matter of grave concernment and under the exercise of both these powers would limit and restrict that immigration by the enactment of such just, humane and reasonable laws and treaties as will produce that result.

ple and proposed partisan laws.

INIQUITIES OF THE DEMOGRACT.

Eight. We charge upon the Democratic party the habitual sacrifice of Justice and patriotism to a supreme and insariable lust for office and patriotism to a supreme and insariable lust for office and patriotism to a supreme and insariable lust for office and patriotism to a supreme and position, they have obstructed all the efforts to preserve the purity and conserve the freedom of suffrage; have devised traudulent certificates and returns; have labored to unseat lawfully elected members of Congress, to secure at all hazards the vote of the majority of States in the House of Representatives; have endeavored to occupy by force and fraud places of trust given to others by the people of Maine, and rescued by the courage and action of Maine's patriotic sons; have by methods victous in principal and tyrannical is practice, attached partisan legislation to appropriation bills; have crushed the rights of individuals, and vindicated the principles and sought the favor of rebellion against the nation, and have endeavored to obliterate the sacred memories of the Republican party to use all the legitimate means of this Union to secure the period the Head of the war and to overcome its inestimable good results—freedom and individual equality. We affirm it to be the duty and purpose of the Republican party to use all the legitimate means of this Union to secure the periotical, sensible people of the United State to say whether it would not be dangerous to the best interests of our country at this time to surrender the administration of the national government to a party which seeks to overthrow the existing policy under which we are so prosperous, and thus bring destruction and confusion where there is now order, confidence and hope.

REPUBLICAN STATE TICKET.

REPUBLICAN

R. H. TAYLOR, : : : STORES O. H. GREY. : : WHITE PINE . E. MORTON, : : ESMERALDA

FOR JUDGE OF THE SUPREME COURT:

Resolutions Adopted by the Re-

RESOLVED. That the platform of principles adopted by the National Republican Convention, at Chicago June last, deserves and receives the approval and hearty indorsement of all the Republicans of Nevada.

RESOLVED. That the hordes of Chinese that are coming in upon our shores to eat out our substance are destroying our country, impovershing our mines, mining and laborers. debauching our youth, and mak ag both men and women lower in the scale of humanity. This evil must and shall be stopped, and to this end we pledge the entire strength of the Republican party.

In the language of our great leader, we regard the immigration of Asiatics to the United states as little less than a service invasion. Should the Commissioners now in negotiation with the Chinese Government fall to secure by the first of next January such modification of the Burlingame Treaty as will practically put an end to the influx of Chinese to this ountry, we demand that the treaty then be promptly annulled, and such laws enacted as will relieve us at once and forever of the Asiatic scourge now menacing the well-being of the Republic.

RESOLVED. That we most heartly insorse the general financial policy of the Republican party, which, in spite of every opposition on the part of the Democracy, has led to the resumption of specie payments, the ralsing of our national credit to a height never before known, and to the restoration of a national prosperity. But we also demand the complets resionation of Specie payments, the ralsing of our national credit to a height never before known, and to the restoration of a national prosperity. But we also demand the complets resionation of Congress, to the purpose of attaining that end we hold it to be the duty of the General Government, through the authorization of Congress, to coin into standard dollars or other legal tender currency, at the cost of coinage, and for the benefit of the producer, the entire silver product of the country, relieving the mining industry for met loss attending the shipment to and sale

to and sale of silver bullion in foreign markets.

As mining for the precious metals is the leading industry of Nevada, we are inflexibly opposed to the bill reported by the Committee on Mines and Mining, and now before the House of Representatives, prohibiting the following of fissure veins or deposits beyond the vertical lines of surface boundaries; and we urge our Representatives in both Heuses of Congress to continue their efforts for its defeat. Such a restriction would work disaster to the labors of the prospector, and sericularly the surface of the West, and we cordially indorse the action of our Representative, the inon. R. M. Daggett, in this bothalf.

Resouved, That the Republican party claims it to be the right and only of State and Territorial Legislatures to regulate and restrict the charges of regulate and that it is no less the constitutional right than the positive duty of Congress to regulate the tariffs and restrict the charges of inter-State railroads.

Resouved, That while we congratulate the

railroads.

KESOLVED, That while we congratulate the country on the successful resumption of specie payments, and the splendid financial condition of the Republic, we are in favor of restricting the issuance of National and State legal tender notes, to denominations of not less than five dollars, thus creating an increased home demand, as a circulating medium, for the precious metals which our mines are annually yielding.

RESOLVED, That Gen. James A. Garfield and Chester A. Arthur, by their services to

and Chester A. Arthur, by their services to the country, by their devotion to princip.e, and by their unspotted reputation as men and as citizens, are deserving of the united and earnest support of all the loyal people of the United States for President and V.ce P esident thereof. We rejoice in their nomination, and we pledge to them the electoral vote of Nevada at the ensuing election, by an overwhelming majority.

YOUNG MEN

WHO MAY BE SUFFERING FROM Vy the effects of youthful follies or indis-cretion, will do well to avail themselves of this, the greatest boon ever laid at the alter of suffering humanity. DR. SPINNEY will guarantee to forfeit \$500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and falls to cure.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smartlug or burning sensation and a weakening of the system in a mannet the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albamen will spear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 8 to 8. Sundays from 10 to 11 a. x. Congalitation Free, Thorough examination and advice \$5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to available.
